

ABOUT US

Sci-Tech Water Treatment Ltd come from a science background offering innovative and cost-effective solutions to all our clients water treatment requirements. Formed in September 2016, a group of industry reknowned Scientists and Engineers came together to set up a company that has both leading knowledge and expertise in the field of Legionella Control and Water Treatment Chemistry. What has made us successful is that we all believe in exceptional customer service and understand that our clients sometimes have a tight budget and would rather spend their funds on areas that truly matter, such as the education of their students, the care of their patients or the development and welfare of their employees.

Our Promises

"We genuinely care about our customers and believe in creating a happy, and compliant, partnership. We promise to:

- Be present whenever you need us
- Extend our expertise specifically to your needs
- Provide a personal service
- Be respectful at all times
- Be positive in our approach
- go the extra mile"

Why Choose Us?

We understand that choosing the right company to help you shouldn't be taken lightly. You are entrusting a third-party with important compliance services that can have a huge impact on your company. That is why we only employ the very best people!

All our engineers are graduate scientists with vast experience in the water treatment industry. Our in-house training is completed by every employee and refreshed regularly. We are routinely audited by industry accreditors to ensure we continue to provide the best service. We regularly complete market research to ensure we are competitively priced. We ensure we are at the forefront of new technologies and understandings within our industry.

On top of this we are fully accredited, insured, approved and are members of the following organisations (please see the accreditations sections for further information):

Our Services & Products

Sci-Tech Water Treatment Ltd provide the following specialist services & products to clients across the UK and abroad.

- **Legionella Risk Assessments**
 - Both domestic hot and cold water systems and cooling water systems
 - Approved by many industry leading organisations including WMSoc and City & Guilds
 - Include schematic drawings in 3D/CAD or Visio format
- **Electronic Monitoring via our Sci-Cloud Platform**

- We offer our Sci-Cloud portal FREE OF CHARGE for all contract customers.
- **Expert Auditing, Investigation & Consultancy Services**
 - We are experts in auditing Legionella Scheme of Controls and associated monitoring records and risk assessments to ensure on-going compliance to guidelines.
 - We offer our consultancy to various large and small organisations to help them with their compliance requirements
 - When things go wrong for companies, we are the company they turn to to plan and implement a formal investigation to determine the cause of the failure and provide consultancy for rectification. We deal with the HSE inspectors on behalf of our clients!
- **Water Treatment Technical Services**
 - Cooling Tower/Evaporative Condenser Chemical Analysis and Mechanical Management in Accordance with the [ACoP L8](#) and [HSG 274 Part 1](#).
 - Steam Boiler Chemical Analysis and Mechanical Management in accordance with [BS2486](#)
 - Water treatment for closed heating and chilled system in strict accordance with BSRIA BG50/2013
- **Water Hygiene Technical Services**
 - In full compliance with the ACoP L8 and [HSG 274 Part 2](#). Monthly service visits to include temperature profiling at Calorifier flow and returns, Sentinel Nearest & Furthest, Representative Hot & Colds, TMV Inlets & Blended and Water Heaters. Quarterly Shower Head & Hose Descals, Six-Monthly Audits and Tank Inspections, Annual TMV Fail-Safe Tests and Servicing.

- **Training Services**

- We offer approved and accredited classroom based Legionella training at all levels from awareness to management
- We also offer approved and accredited Health & Safety Training via our online portal 'The Sci-School Academy' (<https://www.stwt.co.uk/the-sci-school-academy>)
- Our training courses are all approved and accredited with the following:

- **Water Disinfections**

- Formal Clean & Disinfections of Cold-Water Storage Tanks & Associated Hot & Cold Down-Services. Formal Clean & Disinfection of Cooling Towers and Sumps. We have a full catalogue of disinfectants for use in all types of industry, whether you need a DWI approved supplier or require a stronger chemical for solutions to bacterial problems.

- **Provision of Water Treatment Chemicals**

- We offer a full catalogue of industry approved water treatment chemicals for all your requirements. From pH dependant corrosion and scale inhibitors, Bromine and Chlorine biocides, dispersants and alkalinity builders. We also have a full range of steam boiler and close-circuit chemicals.

- **UKAS Accredited Bacterial Sampling & Analysis**

- We have UKAS accredited laboratories throughout the UK that specialise in all aspects of metallurgy and microbiological sampling and analysis. Our most common sampling includes for Legionella Species, TVC, EColi and Coliforms. However, we have the expertise to test for any of your required analytes.

- **Other Services we Offer:**

- Mains Disinfections
- Supply & Installation of Cold-Water Storage Tanks (CWSTs)
- Reline of corroded CWSTs/ Replacement of Hollow Support Bars

- Pre-Commission Flushing & Treatment of Closed Loop Systems (LTHW/Chilled)
- Water System Engineering Works
- Gas-Safety Testing
- Air Hygiene and Indoor Air Quality Testing
- Effluent and Waste Water Treatment & Sampling
- Borehole Treatment
- Farming & Agriculture Sampling
- Filtration
- Solid Chemicals
- Legionella Filtered Showers
- H&S Consultancy Services (Asbestos/Fire etc)

OUR MANAGEMENT TEAM

Lee Roome, Managing Director

Lee founded Sci-Tech Water Treatment Ltd in 2016. He comes from a very strong Science background having gained an Honourable Degree in Forensic Science and worked in various roles including as a Senior Forensic Scientist, Inorganic Chemist and Microbiologist before entering the water treatment market. Lee is a Full Member of The Water Management Society (WMSoc), Royal Society of Chemistry (mRSC), Forensic Science Society (mFSS) as well as having his science work published by the Pathological Science Society.

Dean Goodwin, Operations Manager

Dean comes from a client services background having spent over 15-years working for BMW where he won 'The Best Customer Service Advisor of the Year' award in 2017, beating off competition from 7000 candidates. Dean looks after our national accounts..

Dr. Chris Rivers, Compliance Manager

Chris brings exceptional knowledge to the team having received a doctorate in Chemistry before going straight into Legionella control. Chris is a trained and vastly experienced Legionella Risk Assessor and has worked for some of the countries biggest organisations helping them with their H&S compliance needs; a role that he now fulfils for us.

Other contacts

- Sharon Smith, Office Manager
- Jason Lee MWMSoc, Engineer
- Andy Muir MWMSoc, Risk Assessor
- Dan Hutchinson, Engineer
- Paul Higgins, Client Services Manager
- Richard Ambler, Water Systems Engineer/ Legionella Risk Assessor
- Paul Clayton, Plumber
- Dale Roome, Water Hygiene Engineer
- Finley Mitchell, Graduate Water Chemist

Accreditations, Memberships and Approval Partners

Below are just some of the accreditation held by Sci-Tech Water Treatment Ltd

- **The Water Management Society (WMSoc)** - Our Managing Director is a full member of the WMSoc and has been since 2013; member no. M2539/17. *The Water Management Society (WMSoc) is a not-for-profit membership organisation that has been providing practical and technical training solutions to individuals and companies within the water management industry for over 40 years. Our expertise in Legionella awareness, Legionella and Water Hygiene training enables us to give the most up-to-date instruction on how to prevent Legionnaires' and other waterborne diseases within various water systems, including cooling towers.*

- **CHAS (Contractors Health & Safety Assessment Scheme)** - Sci-Tech Water Treatment Ltd have been a member of CHAS since September 2016; member no. 79209SCI-TG - **CHAS** (The Contractors Health and Safety Assessment Scheme) is a pre-approval scheme, which allows contractors to demonstrate to potential clients that they meet the required health and safety standards.

- **BSRIA (Building Services Research & Information Association)** - Sci-Tech Water Treatment Ltd have been a member of BSRIA since December 2016; member no. CON3044. **BSRIA** is a UK-based testing, instrumentation, research and consultancy organisation, providing specialist services in construction and building services engineering.

- **Alcumus SafeContractor** - Sci-Tech Water Treatment Ltd have been a member of Alcumus SafeContractor since May 2017; member no. QJ4320. **Alcumus SafeContractor** is the market-leading health & safety accreditation system, helping contractors and organisations become healthier, safer, and stronger.

Some of our Happy Customers!

It is a remarkable fact that since our incorporation in 2016, we have ALWAYS had a 100% KPI performance. On top of this, we also have a remarkable 100% contract retention rating. We have NEVER lost a client and the clients we have are very happy with the services we provide. This is testament to our company values of making, and keeping our clients happy!

- [Soho House & Co.](#) - We have a 5-year contract to look after every UK Hotel for this prestigious client. Founded in London in 1995 as a private members' club for people in the creative industries, Soho House & Co has since opened clubs across Europe, North America and Asia, as well as restaurants, cinemas, workspaces, spas and bedrooms.
- [Nido Collection](#) - We look after all of their UK sites as well as 11 sites in Germany, 2 in the Netherlands and 1 in Ireland. Nido provide student accommodation across Europe.
- [Hays Travel](#) - We look after all 171 Hays Travel sites across the UK which will shortly increase to include the approximately 600 Thomas Cook sites which have been purchased by Hays Travel.
- [Quentin Restaurants Ltd](#) - Soho House & Co bought out Quentin Restaurants in 2019 and add all their UK sites to our portfolio.
- [NMCN Plc](#) (Formerly North Midland Construction) - We have a national contract with the construction side of NMCN which includes large factories, office blocks and even small independent housing.
- [Astrea Academy Trust](#) - We have a national contract with Astrea providing fully comprehensive water hygiene and training services via The Sci-School Academy
- **Safestyle UK** - 59 sites across the UK managed by Sci-Tech Water Treatment Ltd from manufacturing sites to office and presentation sites.
- **ZF Services UK** - Prestigious partner of Sci-Tech Water Treatment; this client outsources L8 responsibility to us.
- **Motus Commercials** - Over 200 sites across the UK managed by us!
- **Marshall Motor Group** - National contract for over 140 sites across the UK
- **Unipart Rail** - National Contract
- **Heltcorp/Devonshire Care** - We were brought in by this client following a legionella outbreak in 2019 at one of their sites. They were extremely happy with our service and therefore gave us the full contracts for their entire care home portfolio.
- **Eothen Care Homes** - Indefinite contracts for all of their care homes in the North East and London.

The above are just a few of our clients. More than 70% of our revenue comes from contractual works. References available upon request.
